EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stephen Gurey on 7/26/2005.

The application has been amended as follows:

In claim 1, line 8, "(3)" has been deleted.

REASONS FOR ALLOWANCE

2. Claims 1-4 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Claims 1-4 are allowable over the prior art of record since the cited references taken individually or in combination fails to particularly disclose the claim limitations, "storing for the duration of the active mode the usage by other mobile telephones of each available preamble signature; and selecting when required a signature the recorded usage of which is unlikely to cause collision." It is noted that the closest prior art of record, Gustafsson et al. (U.S. 6,643,275) shows a method of monitoring the transmitted preamble in the radio system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
